

TOOLS

All the tools the Oil and Gas industry require for managing a site

Ridgid

Black Gold only offer the finest tools.

Our extensive experience in the oil and gas industry means we have a working knowledge of not only the conditions tools will be used in, but also a keen understanding of the various tools required for all the applications on an oil and gas drilling or production site.

Whether the application be working on large and small drilling equipment or stringing the barbwire around a site, we have the tool for the job.

To meet the rigorous demands of the industry Black Gold chose to offer the Ridgid line of tools to their worldwide list of clients. Over the years Ridgid have proven themselves to be the premier line of tools for the oil and gas industry.

Tools for Every Application

Let Black Gold keep your crew fully equipped.

We carry a complete line of general purpose tools and tools designed specifically for applications such as pipe fitting.

Contact one of our sales technicians who will assist you in compiling a list of tools to cover all the required applications you will meet on an oil and gas field site. If there is a particular specialist application we will research from a qualified manufacturer the appropriate tool.

The following is an indication of the wide range of tools we provide for oil and gas field applications:

- Power tools for drilling, cutting, grinding, etc
- Hand tools
- Battery and corded job site powered tools
- Bench and stationary tools
- Wrench and socket sets US and metric
- Power wash equipment
- Pressing and crimping tools
- Air tools and compressors
- Pipe and tubing tools - Pipe vises, cutters threading and fabrication

Tool Accessories

Full range of accessories.

Specify the tool and we will supply the appropriate bit, blade, battery, etc.
